<b>E.2b</b>	<b>Reasons for offer; use of proceeds</b>	<p>The net proceeds from the issue of Notes are used by the Issuer to invest in the Advance for that Series under the Borrower Loan Agreement. This is in line with the investment objective to pay to Investors the Final Redemption Amount at the Maturity Date and to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p> <p>Castle Trust uses the funds it receives from the Issuer under the Borrower Loan Agreement to lend Mortgages (with a target of a maximum of 85% of such funds received) and also to invest in liquid assets (with a target of a minimum of 10% of such assets). Obligations under the Borrower Loan Agreement mean that Castle Trust must pay the Issuer an amount equal to the Final Redemption Amount as Notes mature and to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p>
<b>E.3</b>	<b>Description of terms and conditions of Offer</b>	<p>Offer Period: 23 December 2019 – 31 January 2020</p> <p>Amount of any expenses and taxes specifically charged to the Investor: Not Applicable</p> <p>Names and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and offer rates and description of the main terms of their commitment: Castle Trust Capital plc, 10 Norwich Street, London EC4A 1BD. See Parts X and XIX of the Base Prospectus.</p>
<b>E.4</b>	<b>Description of any Interests</b>	<p>Save for certain fees payable to CTCM (equal to 2.5% per annum of Aggregate Nominal Amount of the Series) in connection with the issue of the Notes and the net amounts of the Notes advanced to Castle Trust under the Borrower Loan Agreement, no person involved in the issue of the Notes has an interest material to the offer.</p>
<b>E.7</b>	<b>Estimated expenses charged to Investor</b>	<p>Investors who invest directly with Castle Trust are not subject to an initial charge.</p> <p>No other charges are levied on Investors by the Issuer.</p> <p>Investors may be subject to third party charges from financial intermediaries or service providers in relation to the Fortress Bonds.</p>

		<p>reduction in available capital.</p> <p>The key risks specific to Castle Trust as the <b>"Borrowers"</b> are:</p> <ul style="list-style-type: none"> <li>• Castle Trust is exposed to the risk of its borrowers defaulting on their repayment obligations, and its overall financial performance depends to a certain extent on a number of macroeconomic factors outside the control of Castle Trust which impact on UK housing demand and demand for mortgage lending and consumer lending in general, including political, financial and economic conditions. Factors include gross domestic product growth, unemployment rates, consumer confidence, the availability and cost of credit, taxation, and regulatory changes. These factors could reduce the level of demand for Mortgages and adversely impact the ability of borrowers to satisfy their repayment obligations;</li> <li>• Mortgages and POS Loans that have been originated by Castle Trust are unlikely to be easily sold by Castle Trust. If the period of time for which borrowers hold Mortgages is longer than usual for the UK mortgage market, or the period of time for which borrowers hold POS Loans is longer than is usual for the UK point-of-sale finance market, then Castle Trust may be unable to meet its obligations under the Borrower Loan Agreement because insufficient Mortgages and POS Loans have been repaid;</li> <li>• Castle Trust operates in a regulated environment. Non-compliance by Castle Trust with applicable laws, regulations and codes relevant to the financial services industry would lead to fines, inability to enforce interest income accrued, public reprimands, damage to reputation, increased prudential requirements, enforced suspension of operation or, in extreme cases, withdrawal of authorisation to operate;</li> <li>• Castle Trust's future success depends to a significant degree upon the continued contribution of its key personnel, its ability to recruit, train, retain and motivate personnel, and to ensure that employment contract terms are appropriate;</li> <li>• Castle Trust is reliant on third party people, IT systems and architecture which are provided by and/or supported by third party vendors. A material systems failure could result in loss of key records, leading to financial loss and/or customer detriment; and</li> <li>• Castle Trust has determined that, as its business has grown and evolved, Castle Trust would benefit from conversion to a bank. Accordingly Castle Trust is in dialogue with the Prudential Regulation Authority (PRA) and the Financial Conduct Authority (FCA) in order to pursue a banking licence application. If Castle Trust did not secure a banking licence for any reason, and it was unable to generate its own capital rapidly (in the form of retained earnings), nor raise equity for growth, as an investment firm, then it is likely that Castle Trust's assets and liabilities would grow at a much slower pace (if at all) and its prospects and profitability would be significantly diminished which could, in turn, adversely impact the Issuer's ability to fulfil its obligations under the Notes.</li> </ul>

The Note Conditions may be modified by a resolution passed by at least three quarters of the votes cast at such a meeting. Any modification so approved will be binding on all Noteholders.</p> <p>The Trustee may modify or amend the Note Conditions without the consent of Noteholders if, in its opinion, such amendment is to correct a manifest error; of a formal, minor or technical nature; or is not materially prejudicial to the interests of the Noteholders.</p> <p><b>Notices</b></p> <p>Notices shall be sent to Noteholders at their address on the Register, and shall be deemed to have been given on the fourth weekday after the date of sending.</p> <p><b>Governing law</b></p> <p>English law.</p> <p><b>Enforcement of Notes in Global Form</b></p> <p>In the case of Notes held in the form of a Global Certificate, individual Investors' rights against the Issuer will be governed by a Trust Deed dated 3 July 2014 (as amended from time to time including 24 June 2015, 13 June 2017, 20 March 2019 and 3 June 2019), a copy of which will be available for inspection at the registered office of the Issuer or the Trustee.</p>
<b>C.9</b>	<b>Interest/ Redemption</b>	<p><b>Interest</b></p> <p>Rate of Interest: 2.3406% per annum payable quarterly (as such rate may be: (i) increased by the Issuer (if at all and at its absolute discretion) during the Offer Period and notified to Noteholders prior to the end of such period); and (ii) amended (as part of any extension) to the rate notified by the Issuer to the Noteholders prior to the Election Period) in arrear.</p> <p>Interest Payment Date(s): Last calendar day of April, July, October and January in each year up to and including the Maturity Date.</p>

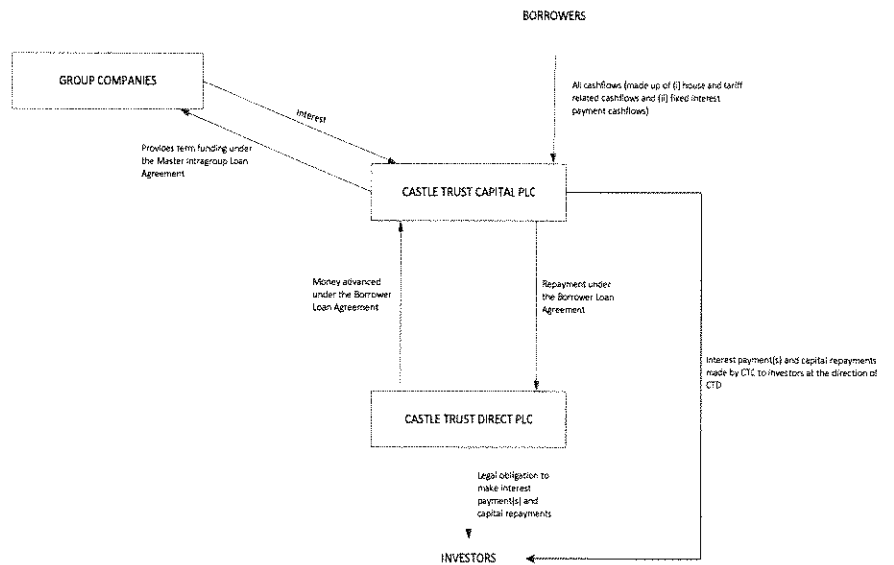

<b>B.29</b>	<b>Flow of funds</b>	<p>The Notes are issued to Castle Trust and the subscription amount is left outstanding on inter-company account.</p> <p>Castle Trust sells the Notes to Investors who make valid applications during the Offer Period. Castle Trust pays the sums received from the sale of the Notes to the Issuer to discharge the outstanding intercompany loan created when the Notes are issued to Castle Trust. Notes which are not sold to Investors during the Offer Period are redeemed.</p> <p>The Issuer advances all subscription monies received from Castle Trust (less certain costs payable by the Issuer) to Castle Trust under the Borrower Loan Agreement. The Issuer offsets its liability to pay the subscription monies to Castle Trust under the Borrower Loan Agreement against Castle Trust's liability to satisfy the intercompany debt for the subscription amount for the Notes. This reduces the number of money flows required.</p> <p>Interest is payable on the Notes at the times specified as Interest Payment Dates (if any), and/or the Maturity Date set out, in the applicable Final Terms. Interest is funded by the Borrowers' obligations under the Borrower Loan Agreement. Castle Trust targets a minimum of 10% of the Investment Amount paid by Investors for their Notes (up to a maximum of the total subscription proceeds not issued as Mortgages or POS Loans) to be invested by Castle Trust into liquid assets meaning Castle Trust should have sufficient liquid reserves in order to fund the Final Redemption Amount payments due.</p> <p>Payment of the Final Redemption Amount shall be made by the Issuer to Investors within three Business Days of the Maturity Date or, if the repayment of the Advance under the Borrower Loan Agreement to which the Notes relate is delayed, within three Business Days of such later date on which the amount of each repayment is actually received by the Issuer in cleared monies.</p>
<b>B.30</b>	<b>Name/description of originators of securitised assets</b>	<p>The only assets of the Issuer are the Borrowers' obligations under the Borrower Loan Agreement. Castle Trust is the borrower under the Borrower Loan Agreement and provides Mortgages to its customers and makes loans to Group companies under the Master Intragroup Loan Agreement. ### 1 Diagram of the Issue structure:

### 2 Interest payment(s) and capital repayments to Investors:

		<p>Castle Trust in relation to that Series will mature and Castle Trust will pay the Issuer a sum not less than the Final Redemption Amount and any Interest due on the Maturity Date so that the Issuer may pay these sums to the relevant Investors and the Notes of such Series will be redeemed in full.</p> <p>The terms and conditions under which Investors purchase Notes from Castle Trust contain an obligation on Castle Trust to buy back the Notes held by Investors. This states that Castle Trust agrees to purchase the Notes held by that Investor on the Maturity Date if they have not been redeemed by the Issuer (as intended) by 14.00 on that day for an amount equal to the Final Redemption Amount and any Interest due but unpaid on the Notes. The structure is illustrated in the following diagrams:</p>
--	--	---

		<p><b>Castle Trust's business</b></p> <p>Castle Trust's business model is based on (i) the provision of loans to the owners and developers of UK residential property secured by a mortgage, and (ii) through its subsidiary OCRF, the provision of loans to UK consumers in order to finance, in full or in part, the purchase of certain products from certain suppliers who partner with OCRF. Castle Trust generates its margins on Mortgages through the accrual and/or regular payment of interest or, instead of collecting interest, by participating (on the basis of a pre-defined formula) in any rise in the value of the property upon which its Mortgages are secured. In some cases Castle Trust's returns are based on the movements of an Index rather than upon the value of the individual mortgaged property. Castle Trust Mortgages may, in some cases, include both house price linked and interest accruing features. Castle Trust generates its margins on POS Loans through the commission charged to the supplier on the products financed and/or the regular payment of interest.</p> <p>Each Mortgage represents a portion (typically, between 10% and 50%) of the value of each individual property. The individual, granular exposures from Castle Trust's Mortgages and POS Loans are pooled to achieve broad diversification. The element of exposure to house price movements which Castle Trust assumes through some of its Mortgages is offered to investors or counterparties who seek exposure to UK housing returns (including through Castle Trust's House investments). The element of exposure to UK interest rates which Castle Trust assumes through its Mortgages and POS Loans is offered to investors through the issue of Fortress Bonds.</p> <p><b>Liquid assets</b></p> <p>Castle Trust targets a minimum of 10% of the Investment Amount paid by Investors for their Notes (up to a maximum of the total subscription proceeds not issued as Mortgages) to be invested by Castle Trust into assets such as cash at bank, senior bank debt, externally managed liquidity funds, securities issued by the UK government and other high quality liquid assets (all with a maturity of less than or equal to two years). This is intended to ensure that Castle Trust has sufficient liquid reserves in order to fund the Interest and Final Redemption Amount payments due pursuant to the Borrower Loan Agreement. Investors do not have any rights over the mortgages or loans provided by Castle Trust nor the liquid assets it holds from time to time.</p>
B.26	<b>Details of actively managed pool of assets</b>	Not applicable; there is not an actively managed pool of assets backing the Notes.
B.27	<b>Statement if further securities backed by same assets</b>	There is not a separate identifiable pool of Mortgages or POS Loans backing each Advance under the Borrower Loan Agreement. Accordingly, the Issuer proposes to issue Notes and further Notes backed by the same assets, which will be announced to the market (including holders of the Notes) by the Issuer.
B.28	<b>Transaction structure</b>	<p>All Notes are first issued to Castle Trust on their respective issue dates and are then admitted to trading on (i) the regulated market of Euronext Dublin; or (ii) the Official List of The International Stock Exchange ("TISE") on the same business day, in accordance with the applicable Final Terms.</p> <p>Castle Trust sells the Notes to Investors who make valid applications during the offer period(s) for the relevant Series (the "Offer Period"). Castle Trust uses the sums received from Investors to discharge the outstanding inter-company loan created when the Notes are issued. Any Notes which are not sold during the Offer Period are redeemed. The Issuer advances all subscription monies for Notes (less certain fees payable to CTCM) to Castle Trust under the Borrower Loan Agreement. Castle Trust will pay interest to the Issuer on each Advance on (or immediately prior to) the Interest Payment Date(s) (if any) and/or the Maturity Date of the relevant Series.</p> <p>On the Maturity Date for each Series, the Advance made by the Issuer to</p>

	As at the date of this document, there has been no significant change to the financial position of the Issuer during the period covered by the financial information above or since 31 March 2019.	
<b>B.24</b>	<b>Material adverse changes</b>	As of the date of this document, there has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements for the period 1 October 2017 to 30 September 2018.
<b>B.25</b>	<b>Description of underlying assets</b>	<p><b>The Borrower Loan Agreement</b></p> <p>The Issuer entered into the Borrower Loan Agreement with Castle Trust on 3 July 2014, which was amended on 29 June 2015 to document CTF's accession to the Borrower Loan Agreement as an additional borrower and then further amended on 28 April 2017 to document CTT's accession to the Borrower Loan Agreement as an additional borrower. On 30 September 2019, the Borrower Loan Agreement was amended and restated to, amongst other things, remove CTF and CTT as parties, with Castle Trust and the Issuer assuming all obligations owing under the Borrower Loan Agreement. Under the Borrower Loan Agreement the Issuer pays the amount raised from the issue of the Notes (less certain costs payable by the Issuer) to Castle Trust. In return, Castle Trust agrees to pay to the Issuer an amount not less than the Interest and the Final Redemption Amount as the Notes mature.</p> <p>The Borrower Loan Agreement has the characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes. However, the Interest and Final Redemption Amount payable to the Investors is dependent on the Borrowers' ability to meet their payment obligations under the Borrower Loan Agreement and the relevant Advance. The Borrower does not provide any security to the Issuer to meet their obligations under the Borrower Loan Agreement.</p> <p>Castle Trust meets its repayment obligations under the Borrower Loan Agreement to pay the Interest and the Final Redemption Amount by (i) providing Mortgages secured on UK property and investing in liquid assets, and (ii) using the income from the intercompany term loans it makes to certain Group companies under the Master Intragroup Loan Agreement to service its repayment obligations.</p>

The table below sets out summary key information extracted from the interim financial statements of the Issuer for the period 1 October 2018 to 31 March 2019:

		<p>each Advance on the Maturity Date.</p> <p>The only business of the Issuer is the issue of Notes and the investment of the net proceeds in the Borrower Loan Agreement to generate the Interest and the Final Redemption Amount.</p> <p>Fortress Bonds are available for a minimum investment of £1,000 and provide returns for those who seek a competitive return on their capital or who wish to diversify their existing low risk investment portfolios. Fortress Bonds qualify for inclusion in SIPPs and ISAs.</p> <p>The Financial Services Compensation Scheme (“FSCS”) can pay compensation to investors if an investment firm (such as Castle Trust) is unable to meet its financial obligations of up to £85,000 per eligible claimant. If an Investor has suffered a loss as a result of Castle Trust failing to meet its financial obligations (for example, if it failed to buy back Fortress Bonds because it had become insolvent) then the Investor would be able to seek compensation from the FSCS, provided the Investor is an eligible claimant.</p> <p>Castle Trust is a regulated investment firm operating in the UK. Castle Trust, which was incorporated in England in 2010, operates predominantly from its head office in London and had 247 permanent employees as at 30 September 2018. Castle Trust provides a range of mortgages, including equity loans, UK residential house price index tracking mortgages and interest bearing mortgages secured on UK property (“<b>Mortgages</b>”). Castle Trust also provides POS Loans through its wholly-owned subsidiary, OCRF.</p> <p>When providing Mortgages or POS Loans, Castle Trust seeks to match the property and interest exposure of its Mortgages or POS Loans, as the case may be, with the repayment obligations under Castle Trust’s funding liabilities.</p> <p><b>Liquid assets:</b> Castle Trust targets a minimum of 10% of the amount invested by an Investor, being the number of Notes purchased multiplied by the issue price for the relevant Series (the “<b>Investment Amount</b>”), (up to a maximum of the total subscription proceeds not issued as either Mortgages or POS Loans) to be invested by Castle Trust into liquid assets with a maturity of less than two years. This is intended to ensure that Castle Trust has sufficient liquid reserves in order to fund the Interest and Final Redemption Amount payments due pursuant to the Borrower Loan Agreement. As at 30 September 2018, Castle Trust held around £118,514,000 of liquid assets. Castle Trust uses the advances under the Borrower Loan Agreement to fund its Mortgage business.</p> <p>Castle Trust is the immediate parent of the Issuer.</p> <p>The Issuer has appointed CTCM as its calculation agent, nominee for holders of the Notes and marketing manager in respect of the Notes. CTCM is a sister company of the Issuer. The Issuer has appointed JTC (Jersey) Limited, who is unconnected to the Issuer, as registrar of the Notes. The Issuer has appointed JTC (Trustees) UK Limited, who is unconnected to the Issuer, as “<b>Trustee</b>” (which expression includes all persons for the time being trustee or trustees appointed under the trust deed dated on or after the date of this Base Prospectus (as amended or supplemented from time to time, including 24 June 2015 and 13 June 2017)) between the Issuer and the Trustee (the “<b>Trust Deed</b>”).</p>

## ANNEX – ISSUE SPECIFIC SUMMARY

### SUMMARY

Section A – Introduction and warnings		
<b>A.1</b>	<b>Introduction</b>	<p>This summary should be read as an introduction to this Base Prospectus. Any decision to invest in Notes should be based on consideration of the Base Prospectus as a whole by the investor. Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only if the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes.</p>
<b>A.2</b>	<b>Use of the Base Prospectus</b>	<p>The Issuer has provided its consent to the use of the Base Prospectus and Final Terms for subsequent resale or final placement of notes (the “<b>Notes</b>”) (a “<b>Public Offer</b>”) by:</p> <ol style="list-style-type: none"> <li>1. all financial intermediaries who fulfil the following conditions: <ol style="list-style-type: none"> <li>(i) an entity (an “<b>Authorised Offeror</b>”) which: <ol style="list-style-type: none"> <li>(a) is authorised to offer securities to the public or distribute Notes under FSMA in the UK (or under the relevant legislation implementing MiFID II in Europe) (“<b>Financial Intermediaries</b>”) for the subsequent resale or final placement of the Notes in the United Kingdom; and</li> <li>(b) considers the relevant manufacturer’s target market assessment and distribution channels identified under the “MiFID II product governance” legend set out in this Prospectus; or</li> </ol> </li> <li>(ii) an Authorised Offeror that is expressly named in the list of Authorised Offerors on the Issuer’s website (<a href="https://www.castletrust.co.uk/important-information#authorised-offerors">https://www.castletrust.co.uk/important-information#authorised-offerors</a>); and</li> </ol> </li> <li>2.
