There has been no significant change in the financial or trading position of Castle Trust since the date of its last interim financial statements of 31 March 2017. There has been no material adverse change in the prospects of CTF since the date of its last interim financial statements of 31 March 2017. There has been no significant change in the financial or trading position of CTF since the date of its last interim financial statements of 31 March 2017.</p>
B.13	Recent events particular to Castle Trust, CTF and CTT which are materially relevant to the evaluation of Castle Trust's, CTF's or CTT's solvency	<p>Not applicable; there have been no recent events which are materially relevant to the evaluation of Castle Trust's, CTF's or CTT's solvency.</p>
B.14	Dependency of Castle Trust, CTF and CTT on other entities within the group	<p>Castle Trust is a wholly-owned subsidiary of CTHJ which in turn is majority owned by J.C. Flowers Fund III, a subsidiary of the J.C. Flowers Group. Castle Trust's subsidiaries include: CTCM, the Issuer, CTF, CTT, CTPOS and OCRF.</p> <p>Castle Trust is not dependent upon other entities within the Group. CTF and CTT are special purpose vehicles and are dependent on Castle Trust and CTCM for various functions.</p>
B.15	Description of Castle Trust's, CTF's and CTT's principal activities	<p>Castle Trust offers Mortgages to borrowers in respect of UK property and, through its subsidiary, OCRF, point-of-sale finance ("POS Loans") to consumers wishing to purchase products from suppliers (OCRF's suppliers currently grouped into six sectors: training and education, medical, lifestyle and valuables, technology and appliances, sports and hobbies and home improvement). Castle Trust acts as the principal borrower under the Borrower Loan Agreement (as defined below) and as the counterparty to investment products entered into by the Issuer and Castle Trust Growth Housa PC.</p> <p>CTF is a special purpose vehicle which purchases certain non-house price and tariff related cashflows in respect of equity loans, UK residential house price tracking mortgages or interest bearing mortgages advanced by Castle Trust and secured on UK property ("Mortgages") and lends the proceeds to Castle Trust under the facility agreement entered into on 3 July 2014 as amended on 29 June 2015 between CTF (as lender) and Castle Trust (as borrower) (the "Intra Group Loan Agreement").</p> <p>CTT is a special purpose vehicle that was incorporated to provide risk management services to the Group, including managing the Group's interest rate risk and liquidity risk. As part of the risk management services it provides to the Group, CTT borrows from the Issuer under the Borrower Loan Agreement in order to provide term funding to certain members of the Group so that Group companies can in turn fund their respective lending activities and/or working capital requirements. This process centralises interest rate and liquidity risks in CTT. CTT lends money to Group companies under the terms of the facility agreement entered into on 28 April 2017 between certain members of the Group for the purpose of providing a contractual framework for the provision of loans between Group companies (the "Master Intragroup Loan Agreement").</p>
B.16	Owner/ controller of Castle Trust, CTF and CTT	<p>CTF and CTT are directly wholly owned and controlled by Castle Trust. CTF, CTT and Castle Trust are each indirectly ultimately owned and controlled by James Christopher Flowers.</p>

B.17	Ratings assigned to the Issuer or its debt securities or to Castle Trust	Not applicable: neither the Issuer nor Castle Trust is rated and Notes issued by the Issuer will not be rated.
B.20	Special purpose vehicle; entity status	The Issuer was incorporated as a special purpose vehicle for the purpose of issuing the Notes, being securities backed by the facility agreement dated 3 July 2014 between the Issuer (as lender) and Castle Trust (as borrower), which was amended on 29 June 2015 to document CTF's accession to the facility agreement as an additional borrower, and which was amended on 28 April 2017 to document CTT's accession to the facility agreement as an additional borrower, pursuant to which the Issuer makes advances to Castle Trust and/or CTT, as required, using the proceeds of issuance of each series of Notes (each, an " Advance ") (the " Borrower Loan Agreement ").
B.21	Description of principal activities and overview of parties to the programme	<p>The Issuer's objective is to provide a return to Investors in each series of Notes (each a "Series") comprising interest on the interest payment date(s) (each an "Interest Payment Date") and/or on the maturity date (each a "Maturity Date") for the relevant Series.</p> <p>To generate the amounts necessary to pay interest on ("Interest"), and to pay the amount payable on the relevant Maturity Date (the "Final Redemption Amount") of, the Notes, the Issuer entered into the Borrower Loan Agreement with Castle Trust (in its capacity as the principal borrower, the "Principal Borrower") on 3 July 2014, which was amended on 29 June 2015 to document CTF's accession to the Borrower Loan Agreement (the "First Additional Borrower") in connection with the purchase (and expected further purchases) from the Principal Borrower of a portfolio of Mortgage cashflows and consequential increases in the First Additional Borrower's liabilities under the Borrower Loan Agreement. The Borrower Loan Agreement was further amended on 28 April 2017 to document CTT's accession to the Borrower Loan Agreement (CTT in its capacity as an additional borrower, the "Second Additional Borrower" and, together with the Principal Borrower and the First Additional Borrower, the "Borrowers").</p> <p>As part of the risk management services it provides to the Group, CTT borrows from the Issuer under the Borrower Loan Agreement in order to provide term funding to certain members of the Group under the Master Intragroup Loan Agreement so that Group companies can in turn fund their respective lending activities and/or working capital requirements. Unlike the First Additional Borrower, the Second Additional Borrower borrows directly from the Issuer rather than assuming the Principal Borrower's liabilities under the Borrower Loan Agreement in exchange for Mortgage cashflows. Under the Borrower Loan Agreement, the issue proceeds received by the Issuer for subscription for each Series (net of its costs) are advanced to Castle Trust and/or CTT, as required. The Borrowers will pay interest on each Advance on (or immediately prior) to the Interest Payment Date(s) (if any) of the relevant Series and/or the Maturity Date of the relevant Series and will repay the principal amount of each Advance on the Maturity Date.</p> <p>The only business of the Issuer is the issue of Notes and the investment of the net proceeds in the Borrower Loan Agreement to generate the Interest and the Final Redemption Amount.</p> <p>Fortress bonds (meaning a Fixed Rate Note or Floating Rate Note (as the case may be) that has been sold by Castle Trust or CTCM to an Investor) ("Fortress Bonds") are available for a minimum investment of £1,000 and provide returns for those who seek a competitive return on their capital or who wish to diversify their existing low risk investment portfolios. Fortress Bonds qualify for inclusion in SIPPs and ISAs.</p> <p>The Financial Services Compensation Scheme ("FSCS") can pay compensation to investors if an investment firm (such as Castle Trust) is unable to meet its financial obligations of up to £50,000 per eligible claimant (as opposed to bank deposits where the limit is, as at the date of this</p>

		<p>document, £85,000). If an Investor has suffered a loss as a result of Castle Trust failing to meet its financial obligations (for example, if it failed to buy back Fortress Bonds because it had become insolvent) then the Investor would be able to seek compensation from the FSCS, provided the Investor is an eligible claimant.</p> <p>Castle Trust is a regulated investment firm operating in the UK. Castle Trust, which was incorporated in England in 2010, operates predominantly from its head office in London and had 99 permanent employees as at 30 September 2016. Castle Trust provides a range of mortgages, including equity loans, UK residential house price index tracking mortgages and interest bearing mortgages secured on UK property ("Mortgages"). Castle Trust also provides POS Loans through its wholly-owned subsidiary, OCRF.</p> <p>When providing Mortgages or POS Loans, Castle Trust seeks to match the property and interest exposure of its Mortgages or POS Loans, as the case may be, with the repayment obligations under Castle Trust's funding liabilities.</p> <p>Liquid assets: Castle Trust targets a minimum of 15% of the amount invested by an Investor, being the number of Notes purchased multiplied by the issue price for the relevant Series (the "Investment Amount"), (up to a maximum of the total subscription proceeds not issued as either Mortgages or POS Loans) to be invested by Castle Trust into liquid assets with a maturity of less than two years. This is intended to ensure that Castle Trust has sufficient liquid reserves in order to fund the Interest and Final Redemption Amount payments due pursuant to the Borrower Loan Agreement. As at 30 September 2016, Castle Trust held £124,952,412 of liquid assets. Castle Trust uses the advances under the Borrower Loan Agreement to fund its Mortgage business.</p> <p>Castle Trust is the immediate parent of the Issuer.</p> <p>The Issuer has appointed CTCM as its calculation agent, nominee for holders of the Notes and marketing manager in respect of the Notes. CTCM is a sister company of the Issuer. The Issuer has appointed JTC (Jersey) Limited, who is unconnected to the Issuer, as registrar of the Notes. The Issuer has appointed JTC (Trustees) UK Limited, who is unconnected to the Issuer, as "Trustee" (which expression includes all persons for the time being trustee or trustees appointed under the trust deed dated on or after the date of this Base Prospectus (as amended or supplemented from time to time, including 24 June 2015 and 13 June 2017)) between the Issuer and the Trustee (the "Trust Deed").</p>

B.24	Material adverse changes	As of the date of this document, there has been no material adverse change in the prospects of the Issuer since the date of its last interim financial statements of 31 March 2017.																																													
B.25	Description of underlying assets	<p>The Borrower Loan Agreement</p> <p>The Issuer entered into the Borrower Loan Agreement with Castle Trust on 3 July 2014, which was amended on 29 June 2015 to document CTF's accession to the Borrower Loan Agreement as an additional borrower and then further amended on 28 April 2017 to document CTT's accession to the Borrower Loan Agreement as an additional borrower. Under the Borrower Loan Agreement the Issuer pays the amount raised from the issue of the Notes (less certain costs payable by the Issuer) to Castle Trust and/or CTT, as required. In return, the Borrowers agree to pay to the Issuer an amount not less than the Interest and the Final Redemption Amount as the Notes mature.</p> <p>The Borrower Loan Agreement has the characteristics that demonstrate capacity to produce the funds required to service the payments due and payable on the Notes. However, the Interest and Final Redemption Amount payable to the Investors is dependent on the Borrowers' ability to meet their payment obligations under the Borrower Loan Agreement and the relevant Advance. The Borrowers do not provide any security to the Issuer to meet their obligations under the Borrower Loan Agreement.</p> <p>CTF meets its obligations under the Borrower Loan Agreement to pay the Interest and the Final Redemption Amount by purchasing Mortgage cashflows from Castle Trust and using the income from these Mortgage cashflows to service its payment obligations. Payments due on these Mortgage cashflows are left outstanding pursuant to the Intra Group Loan Agreement with Castle Trust making funds available when CTF requires these to make payments pursuant to the Borrower Loan Agreement. Castle Trust meets its repayment obligations under the Borrower Loan Agreement to pay the Interest and the Final Redemption Amount by providing Mortgages secured on UK property and investing in liquid assets. CTT meets its</p>																																													

		<p>obligations under the Borrower Loan Agreement to pay the Interest and the Final Redemption Amount by using the income from the intercompany term loans it makes to certain Group companies under the Master Intragroup Loan Agreement to service its repayment obligations.</p> <p>Castle Trust's business</p> <p>Castle Trust's business model is based on (i) the provision of loans to the owners and developers of UK residential property secured by a mortgage, and (ii) through its subsidiary OCRF, the provision of loans to UK consumers in order to finance, in full or in part, the purchase of certain products from certain suppliers who partner with OCRF. Castle Trust generates its margins on Mortgages through the accrual and/or regular payment of interest or, instead of collecting interest, by participating (on the basis of a pre-defined formula) in any rise in the value of the property upon which its Mortgages are secured. In some cases Castle Trust's returns are based on the movements of an Index rather than upon the value of the individual mortgaged property. Castle Trust Mortgages may, in some cases, include both house price linked and interest accruing features. Castle Trust generates its margins on POS Loans through the commission charged to the supplier on the products financed and/or the regular payment of interest.</p> <p>Each Mortgage represents a portion (typically, between 10% and 50%) of the value of each individual property. The individual, granular exposures are pooled to achieve broad diversification. The element of exposure from Castle Trust's Mortgages and POS Loans to house price movements which Castle Trust assumes through some of its Mortgages is offered to investors or counterparties who seek exposure to UK housing returns (including through Castle Trust's Housa investments). The element of exposure to UK interest rates which Castle Trust assumes through its Mortgages and POS Loans is offered to investors through the issue of Fortress Bonds.</p> <p>Liquid assets: Castle Trust targets a minimum of 15% of the Investment Amount paid by Investors for their Notes (up to a maximum of the total subscription proceeds not issued as Mortgages) to be invested by Castle Trust and/or CTT into assets such as cash at bank, senior bank debt, externally managed liquidity funds, securities issued by the UK government and other high quality liquid assets (all with a maturity of less than or equal to two years). This is intended to ensure that Castle Trust and CTT have sufficient liquid reserves in order to fund the Interest and Final Redemption Amount payments due pursuant to the Borrower Loan Agreement. Investors do not have any rights over the mortgages or loans provided by Castle Trust nor the liquid assets it holds from time to time.</p>
B.26	Details of actively managed pool of assets	Not applicable; there is not an actively managed pool of assets backing the Notes.
B.27	Statement if further securities backed by same assets	There is not a separate identifiable pool of Mortgages or POS Loans backing each Advance under the Borrower Loan Agreement. Accordingly, the Issuer proposes to issue Notes and further Notes backed by the same assets, which will be announced to the market (including holders of the Notes) by the Issuer.
B.28	Transaction structure	<p>All Notes are first issued to Castle Trust on their respective issue dates and are then admitted to trading on the regulated market of the ISE on the same business day.</p> <p>Castle Trust sells the Notes to Investors who make valid applications during the offer period(s) for the relevant Series (the "Offer Period"). Castle Trust uses the sums received from Investors to discharge the outstanding inter-company loan created when the Notes are issued. Any Notes which are not sold during the Offer Period are redeemed. The Issuer advances all subscription monies for Notes (less certain fees payable to CTCM) to Castle</p>

Trust and/or CTT, as required, under the Borrower Loan Agreement. Castle Trust and CTT will pay interest to the Issuer on each Advance on (or immediately prior to) the Interest Payment Date(s) (if any) and/or the Maturity Date of the relevant Series.

On the Maturity Date for each Series, the Advance made by the Issuer to Castle Trust or CTT in relation to that Series will mature and the Borrowers will pay the Issuer a sum not less than the Final Redemption Amount and any Interest due on the Maturity Date so that the Issuer may pay these sums to the relevant Investors and the Notes of such Series will be redeemed in full.

The terms and conditions under which Investors purchase Notes from Castle Trust contain an obligation on Castle Trust to buy back the Notes held by Investors. This states that Castle Trust agrees to purchase the Notes held by that Investor on the Maturity Date if they have not been redeemed by the issuer (as intended) by 14.00 on that day for an amount equal to the Final Redemption Amount and any Interest due but unpaid on the Notes. The structure is illustrated in the following diagrams:

<p>B.29</p>	<p>Flow of funds</p>	<p>The Notes are issued to Castle Trust and the subscription amount is left outstanding on inter-company account.</p> <p>Castle Trust sells the Notes to Investors who make valid applications during the Offer Period. Castle Trust pays the sums received from the sale of the Notes to the Issuer to discharge the outstanding intercompany loan created when the Notes are issued to Castle Trust. Notes which are not sold to Investors during the Offer Period are redeemed.</p> <p>The Issuer advances all subscription monies received from Castle Trust (less certain costs payable by the Issuer) to Castle Trust and/or CTT, as required, under the Borrower Loan Agreement. The Issuer offsets its liability to pay the subscription monies to Castle Trust and/or CTT, as applicable, under the Borrower Loan Agreement against Castle Trust's liability to satisfy the intercompany debt for the subscription amount for the Notes. This reduces the number of money flows required.</p> <p>Interest is payable on the Notes at the times specified as Interest Payment Dates (if any), and/or the Maturity Date set out, in the applicable Final Terms. Interest is funded by the Borrowers' obligations under the Borrower Loan Agreement. Castle Trust targets a minimum of 15% of the Investment Amount paid by Investors for their Notes (up to a maximum of the total subscription proceeds not issued as Mortgages or POS Loans) to be invested by Castle Trust and/or CTT into liquid assets meaning Castle Trust and CTT should have sufficient liquid reserves in order to fund the Final Redemption Amount payments due.</p> <p>Payment of the Final Redemption Amount shall be made by the Issuer to Investors within three Business Days of the Maturity Date or, if the repayment of the Advance under the Borrower Loan Agreement to which the Notes relate is delayed, within three Business Days of such later date on which the amount of each repayment is actually received by the Issuer in cleared monies.</p>
--------------------	-----------------------------	--

B.30	Name/description of originators of securitised assets	The only assets of the Issuer are the Borrowers' obligations under the Borrower Loan Agreement. Castle Trust is the principal borrower under the Borrower Loan Agreement and provides Mortgages to its customers. CTF is an additional borrower under the Borrower Loan Agreement and meets its payment obligations by purchasing Mortgage cashflows from Castle Trust. CTT is an additional borrower under the Borrower Loan Agreement and meets its payment obligations by using the income it receives from loans it has made to Group companies under the Master Intragroup Loan Agreement. The business address of each of Castle Trust, CTF and CTT is: Tower 42, 25 Old Broad Street, London EC2N 1HQ.

Section D – Risks		
D.2	Key information on the key risks specific to the Issuer and Castle Trust	<p>The key risks specific to the Issuer are:</p> <ul style="list-style-type: none"> the Issuer has no material assets save for the Borrowers' obligations under the Borrower Loan Agreement and therefore if the Borrowers fail to meet those obligations the Issuer will not be able to meet its obligations to Investors; and the Issuer's only investments for each Series are in the relevant Advance under the Borrower Loan Agreement and there is no counterparty risk diversification. <p>The key risks specific to Castle Trust, CTF and CTT as the "Borrowers" are:</p> <ul style="list-style-type: none"> Castle Trust, CTF and CTT are exposed to the risk of borrowers defaulting on their repayment obligations, and their overall financial performance depends to a certain extent on a number of macroeconomic factors outside the control of Castle Trust, CTF and CTT which impact on UK housing demand and demand for mortgage lending and consumer lending in general, including political, financial and economic conditions. Factors include gross domestic product growth, unemployment rates, consumer confidence, the availability and cost of credit, taxation, and regulatory changes. These factors could reduce the level of demand for Mortgages and adversely impact the ability of borrowers to satisfy their repayment obligations; Mortgages and POS Loans that have been originated by Castle Trust are unlikely to be easily sold by Castle Trust. If the period of time for which borrowers hold Mortgages is longer than usual for the UK mortgage market, or the period of time for which borrowers hold POS Loans is longer than is usual for the UK point-of-sale finance market, then Castle Trust, CTF and CTT may be unable to meet their obligations under the Borrower Loan Agreement because insufficient Mortgages and POS Loans have been repaid; Castle Trust operates in a regulated environment. Non-compliance by Castle Trust with applicable laws, regulations and codes relevant to the financial services industry would lead to fines, inability to enforce interest income accrued, public reprimands, damage to reputation, increased prudential requirements, enforced suspension of operation or, in

		<p>extreme cases, withdrawal of authorisation to operate;</p> <ul style="list-style-type: none"> • Castle Trust's future success depends to a significant degree upon the continued contribution of its key personnel, its ability to recruit, train, retain and motivate personnel, and to ensure that employment contract terms are appropriate; and • Castle Trust is reliant on third party people, IT systems and architecture which are provided by and/or supported by third party vendors. A material systems failure could result in loss of key records, leading to financial loss and/or customer detriment.
D.3	Key information on the key risks specific to the securities	<p>The key risks specific to the Notes are:</p> <ul style="list-style-type: none"> • Investors' capital is at risk. Investors may lose up to the entire value of their investment in the Notes as a result of the occurrence of: <ul style="list-style-type: none"> (a) the insolvency of the Issuer, CTF, CTT and/or Castle Trust; and (b) amounts payable being subject to deduction for tax and/or expense; • Investors will not be entitled to redeem any of their Notes prior to the Maturity Date. However, Investors may dispose of their Notes if a secondary market develops but there is no guarantee that such a market will develop (independently of Castle Trust) or whether it will be liquid or illiquid. The FSCS does not apply to Investors who acquire Notes on any such secondary market; • The Borrower Loan Agreement is unsecured and none of CTF, CTT and Castle Trust provide collateral in respect of their obligations under the Borrower Loan Agreement. The Notes are therefore subject to the credit risk of CTF, CTT and Castle Trust; • In the event that Castle Trust has insufficient reserves to repurchase all Notes maturing, qualifying Investors' only recourse will be to seek compensation from the FSCS (under which, at the date of this document, they may seek to recover up to £50,000 of losses, provided they are an eligible claimant); and • Otherwise, in the event that CTF, CTT and Castle Trust have insufficient reserves to pay to the Issuer the Final Redemption Amount for, and any Interest due on, the Notes as they mature, all affected Investors would rank as ordinary unsecured creditors of the Issuer to the extent that the Issuer has insufficient funds to pay in full the Final Redemption Amount and/or any Interest due on their Notes.

Section E – Offer		
E.2b	Reasons for offer; use of proceeds	<p>The net proceeds from the issue of Notes are used by the Issuer to invest in the Advance for that Series under the Borrower Loan Agreement. This is in line with the investment objective to pay to Investors the Final Redemption Amount at the Maturity Date and to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p> <p>Castle Trust uses the funds it receives from the Issuer under the Borrower Loan Agreement to lend Mortgages (with a target of a maximum of 85% of such funds received) and also to invest in liquid assets (with a target a minimum of 15% of such assets). Obligations under the Borrower Loan Agreement mean that Castle Trust, CTF and CTT must pay the Issuer an amount equal to the Final Redemption Amount as Notes mature and to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p>

E.3	Description of terms and conditions of Offer	<p>Offer Period: 31 October 2017 – 30 November 2017</p> <p>Amount of any expenses and taxes specifically charged to the Investor: Not Applicable</p> <p>Names and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and offer rates and description of the main terms of their commitment: Castle Trust Capital plc, 10 Norwich Street, London EC4A 1BD. E.4	Description of any Interests	<p>Save for certain fees payable to CTCM (equal to 2.5% per annum of Aggregate Nominal Amount of the Series) in connection with the issue of the Notes and the net amounts of the Notes advanced to Castle Trust under the Borrower Loan Agreement, no person involved in the issue of the Notes has an interest material to the offer.</p>
E.7	Estimated expenses charged to Investor	<p>Investors who invest directly with Castle Trust are not subject to an initial charge.</p> <p>No other charges are levied on Investors by the Issuer, CTF or CTT.</p> <p>Investors may be subject to third party charges from financial intermediaries or service providers in relation to the Fortress Bonds.</p>
